The Covenant

****The Covenant****

Many races with a heart of blackness

>Vow to destroy life's very essence
A mortal enemy that holds the
card of death

Living without remorse

Seeking the blood of innocent

>These beasts are the mentis
They stolen the life of
existence

They are the real dooms day

Their metallic amore shimmers through battle

>Bolts of pain hits the defenders
Their mighty fist of evil pounds
down on Earth

A war has begun

Their anger boils with in them

>The murders had begun
Their cruisers travel from the for end of
space

>And the Prophets called for the pain<p>

And for what

>To kill what they hate
They are the Covenant

End
